

manipulating strings

escape characters

```
In [12]: print("HelloWorld")      # " " double quote
```

HelloWorld

```
In [13]: print('Hello World')    # ' ' single quote
```

Hello World

```
In [14]: print("Hello\nTejal")   # \n new line
```

Hello
Tejal

```
In [15]: print('Hello\tTejal')   # \t tab = 4 spaces
```

Hello Tejal

```
In [16]: print("Hello\bTejal")   # \b last char remove
```

HellTejal

raw string (r)

all escape chara as it is print

```
In [17]: print('Hii,\nTejal.\nHow are you?')    # normal
```

Hii,
Tejal.
How are you?

```
In [18]: print(r'Hii,\nTejal.\nHow are you?')    # raw string, print as it is
```

Hii,\nTejal.\nHow are you?

```
In [19]: print('''Hii           triple quote '''  
pragati.  
How are you''')
```

Hii
pragati.
How are you

```
In [22]: print('''Hey,  
  
whats up  
  
buddy''')
```

Hey,

whats up

buddy
